JP 273 Bb Baritone Horn specification

Model

JP273 & JP273S

Finish

The JP273 has a yellow lacquer finish and the JP273S is finished in silver plate.

Body

The baritone horn is made of high grade brass.

Features

Compensating system

3 Bottom sprung valves for a smooth action.

3 water keys.

9 1/2" bell for a greater projection of sound.

Accessories and maintenance

The baritone horn is supplied with a small shank mouthpiece, an all round mouthpiece, neither too deep nor too shallow. Many players will customise their instrument with their own choice of mouthpiece, which adheres to their specific playing requirements.

Case

The instrument case is lightweight and strong. It comes with backpack style straps and a shoulder strap, plus carrying handles for convenience and security. There is an internal accessory section and external pocket for sheet music.
